

Friends of **Civil Engineering**

Industry and academia working together to improve the built environment and to educate tomorrow's civil and environmental engineering workforce.

I am pleased to accept this invitation to become a **Friend of Civil Engineering** in support of Arizona State University's Ira A. Fulton Schools of Engineering.

Support FOCE

- \$1,000 – FOCE Member:** includes membership for one year (FMV \$1,530)
 FOCE government, agency or nonprofit member

I want to support FOCE's strategic initiatives (ex. student programs) with a charitable gift of:

- \$ _____ \$3,000 \$5,000

I am interested in making a greater impact as an FOCE member. Please contact me about:

- Scholarships Committee service Opportunities at ASU

Benefits of FOCE membership

Benefits of membership include a discount on registration for the SSEBE career fairs held each semester, invitation to the fall FOCE mixer, graduation luncheons each semester and recruitment opportunities each semester.

- I do not wish to receive the benefits associated with my payment. My entire payment is a gift.

Payment

- A check for the full amount, made payable to the **ASU Foundation**, is enclosed.
 The gift should be charged to the following credit card:

- Visa Master Card Discover American Express

Card number: _____ Expiration date: _____

Signature: _____ Date: _____

Company information

Company name: _____ Contact person: _____

Address: _____

City: _____ State: _____ Zip code: _____

Phone: _____ Email: _____

- My (or my spouse's) employer is a matching gift corporation. I have enclosed the appropriate matching gift form.

Company name: _____

Please make checks payable to **ASU Foundation** and mail to:
School of Sustainable Engineering and the Built Environment
Arizona State University
P.O. Box 873005
Tempe, AZ 85287-3005

Thank you for your support of the civil engineering program in ASU's School of Sustainable Engineering and the Built Environment, one of the Ira A. Fulton Schools of Engineering.

If you have questions, please contact:

Judy Reedy
480-965-1713
judy.reedy@asu.edu

All funds will be deposited with the ASU Foundation, a separate nonprofit organization that exists to support ASU. Due to the value of benefits provided, only payments in excess of fair market value (FMV) may be considered a charitable contribution. Please consult your tax advisor regarding the deductibility of charitable contributions. (30001471)

Friends of Civil Engineering

The civil engineering program at Arizona State University is committed to student success, providing opportunities for an exceptional education both in and out of the classroom. Experiential opportunities like research, internships, travel to conferences, industry mixers and student organizations are all part of the student experience — and Friends of Civil Engineering (FOCE) members play an important role in providing these experiences and creating the workforce of tomorrow.

The mission of FOCE is to support educational programs of the Civil, Environmental and Sustainable Engineering program and facilitate partnerships to improve the quality of life and the built environment.

As a member of FOCE you can...

Help attract and retain students by enhancing the learning environment and educating students about the industry

Provide a source of discretionary funds to support the students' educational experience

Sponsor events that bring industry professionals, students and faculty together

Promote career development experiences through internships, mentorship and other opportunities

Be a voice and resource to promote solutions for the community's pressing infrastructure needs

Impact on students

FOCE helps fill the gap between classroom and workplace. Members help make it possible for engineering students to prepare for the workforce by creating internship opportunities and providing real life lessons through guest lectures and opportunities to interact with industry professionals. It also supports student organizations such as ASCE, Bridges to Prosperity and Engineers Without Borders, enabling students to participate in unique learning experiences. FOCE encourages students directly by paying for the cost of the FE exam for those who pass it on the first attempt.

Membership benefits

FOCE membership pays for itself! Your annual investment of \$1,000 offers \$1,530 in student engagement and industry network opportunities. Your membership provides resources to educate and prepare your company's next generation of leaders in civil engineering and interact with top talent early in their career.

Do you want to make a greater impact? Members support strategic initiatives such as the Undergraduate Teaching Assistant program, scholarships, student activities such as Engineers Without Borders, ongoing special events and programs or provide annual discretionary funds for the Civil Engineering Program Chair.

Get Involved & Give Back

Be involved as much as you want!

Members who want to be more involved can choose to join one of the strategic-initiatives committees that focus on education, internship and employment, partnership and membership or work with students in the classroom.

Participate in the twice yearly SSEBE Career Fairs

Early registration access is provided for members!

The career fairs take place in the College Avenue Commons (CAVC), the home of the civil engineering program. Members can register in advance for preferred booth locations and discounted rates. Representatives from your company will be able to interact with students and faculty to identify top talent to pursue both in spring and fall (a \$400 value).

Gain access to student interns

Identify your top talent early!

As a member you will have a chance to evaluate potential employees through experiential interactions such as internships, student mentoring and participating with research projects in a collaborative learning environment.

Recruit with an information table and interview room

Establish your company brand and rapport with students!

Twice a year, set up an information table inside the CAVC and speak with your potential employees throughout the day. FOCE members get one free information table and full day interview room in the CAVC each semester (a \$1,040 value).

Attend informal mixers and seminars

Know the students before they are your employees!

Get to know the person behind the student through our annual mixer, barbecue and baseball game, or graduation luncheon. You'll also have the opportunity to attend civil engineering seminars with students held by faculty and guest lecturers (a \$90 value).

Network with local industry

Make industry connections!

Your membership to FOCE provides you access in an educational setting to connect with ASU faculty and professionals from organizations in the Valley including contractors, suppliers and business owners.
