FOCE²

Celebrating 25 years of supporting ASU's civil and environmental engineering students and programs

FOCE² funds and enables key strategic initiatives for civil, environmental and sustainable engineering (CESE) and environmental engineering (EVE) programs within the School of Sustainable Engineering and the Built Environment (SSEBE). The program helps retain and motivate talented students to achieve success and further our engineering professions.

Enhancing the student experience

FOCE² donations support funding for students through the FE exam fee reimbursement program, travel to professional meetings, mixers to help students make industry connections, student organizations and projects, labs and programs, and the Professor of Practice Campaign.

Membership matters

Membership in FOCE² provides an opportunity that facilitates meaningful connections with Arizona State University students, faculty, administrators, staff and friends. It makes a profound public statement regarding your support of initiatives that advance the excellence and mission of the university we love.

Our story

For 25 years, FOCE² has demonstrated the value of industry and academia working together to elevate and educate tomorrow's civil and environmental engineering workforce. FOCE² members help close the gap between classroom and workplace and help make it possible for engineering students to be prepared for industry and interact with industry professionals.

“We appreciate your investment and commitment to today’s civil and environmental engineering students. These are the same students who, in the near future, will be responsible for the built environment in which we live.”

– DAN MEYER, PE,
STEERING COMMITTEE CHAIR

“Participation in FOCE² has provided my firm a conduit to give back to the next generation of civil and environmental engineers and have a voice in recommendations to the departments to understand industry needs and direction.”

– FREDERICK TACK, PE, BC.WRE, ENV SP
MEMBERSHIP SUBCOMMITTEE CHAIR

**Friends of Civil &
Environmental
Engineering**

Membership benefits

Beginning January 1, 2025, and recurring annually

TIER 1 INCLUDES TIER 2 BENEFITS PLUS:

- Additional seat on the steering committee.
- Access to engineering student organization leadership contact lists.
- Acknowledgment from the Ira A. Fulton Schools of Engineering and SSEBE for contribution.
- Invitation to key SSEBE events.
- Invitation to the CEE/EVE commencement luncheon.

TIER 2 INCLUDES TIER 3 BENEFITS PLUS::

- Single seat on the FOCE² steering committee.
- Invitation and free enrollment to FOCE² events.
- LinkedIn acknowledgment by SSEBE.
- Early access to register for civil/environmental engineering career fairs.
- Annual classroom engagement invitation (ASU 101 class).

TIER 3

- Name recognition on FOCE² webpage and brochures
- Name recognition and signage during key FOCE² events
- Early access to CEE/EVE capstone project group mentoring and judging
- FOCE² subcommittee participation
- Notifications and copy of Steering Committee and subcommittee reports and meeting minutes
- Invitation and dedicated table at FOCE² student events.
- Early access to classroom engagement opportunities.

Public and non-profit opportunities

Public and non-profit entities are enrolled in membership similar to a Tier 3 level with no annual charge, plus a single seat on the Steering Committee.

Join **FOCE²** today!

TIER 1 • \$7,500 ANNUAL DONATION

TIER 2 • \$5,000 ANNUAL DONATION

TIER 3 • \$2,500 ANNUAL DONATION
